Vodavi Integrations

- TRIAD₁
- TRIAD₂
- XTS

Expand the value of your Vodavi phone system with the Discovery VoIP Card

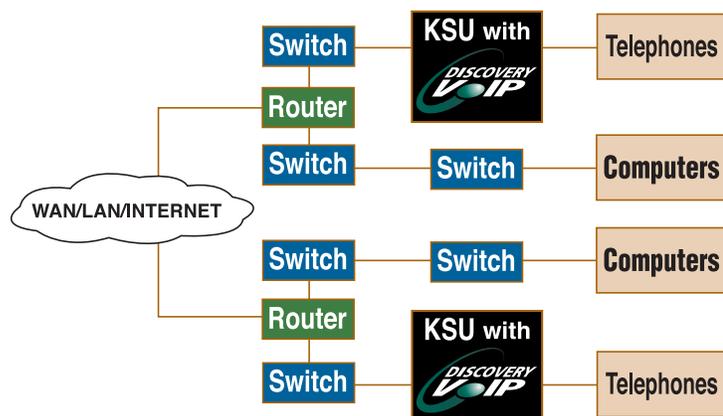

From reducing toll charges to helping streamline business communications, IP telephony is clearly a significant cost savings tool for businesses to consider. To help you cash in on the advantages of Internet telephony, Vodavi has added, as a complement to its complete line of telephone systems, the new Discovery VoIP Card.

Realize Long-Distance Savings

Your business' remote offices can now communicate without long-distance charges while leveraging your existing data connections by simply dialing an internal extension. Your shared IP network, whether Local Area Network (LAN), Wide Area Network (WAN) or the Internet, can now provide quality communications between geographically dispersed remote offices without the cost of long-distance.

An Integrated Solution for Vodavi Phone Systems

The Discovery VoIP Card is an integrated solution and fits right into your existing Vodavi phone system.* This allows you to enhance the value of your current phone system and protect your initial capital investment. Installation and set-up is straightforward and is completed within minutes. All your phone system features remain intact, but now you have the added benefit of VoIP communications.
